INSTRUCTING THE HIGH COMMISSION

It is said that the President expresses no embarrassment at the attempts which are apparently making to force on the High Commission questions which were not contemplated in its appointment. Rumor at first gave him the credit of having approved these. But this has caused to be denied. That there is something of the sort intended by certain members of Congress is certain. On Saturday last a resolution was introduced in the Senate by Mr Howard of Michigan proposing that the American Commissioners be directed to bring before the Commission a proposition to embrace in any settlement which may be proposed the annexation of all that part of British America lying north of the 49th parallel, with the right of free navigation of all the main outlets to both the Atlantic and Pacific oceans. The resolution was laid over for want of unanimous consent. It will be pleasant to the House of Representatives to know that Monday last in relation to the proposed new army survey of the same character and extent was laid on the table and it was suggested by one member, Mr Dawes of Mass, that it is doubtful if before the survey can be completed it will be necessary to consult the wishes of the territory in question.

Many Canadians have heard of the Fenians only to be entertained by them as a good joke. They will be surprised to learn that a Congressional resolution of inquiry has been introduced looking to the suppression of their own territory. It appears to be quite too much for the patience of our Canadian neighbors. Their newspapers generally say that the people of Canada will not consent to be annexed to the United States and that if we want the British provinces we must take them against their will. It is talking of our National Government as if it were a despotic one that no improvements can be entertained which are not approved by the Government, whatever contributions to American members of it may be conceived in this country to be likely to promote the interests of the United States.

It must be a matter of regret, says the Philadelphia Ledger, that the subject has been brought before Congress. It will only be the occasion of alarms that may serve to embarrass the negotiations of the joint commission and retard a final adjustment of the questions at issue more difficult to be regarded as only a new proposition of four million square miles of territory to be taken after the redistribution of our Government and other governments. Such a proposition has not even been thought of by the commissioners, the Commission was not appointed to deal with it, and it could not now be brought before them in any way but by common consent. But what would be the probable impracticable as a basis of settlement if it were considered in the question. The real question is the fact that it can not be carried into effect since all the provinces of Canada themselves have to be consulted in the matter of the proposed change. The consent of the people of Canada is a requirement of the British North America Act, which provides for the admission of the Dominion of Canada into the Union. It is not to be presumed that Great Britain will convey the Canadian provinces to the United States without receiving a portion of the money paid for them. Nor can it be supposed that the Canadian provinces will be willing to be transferred to the United States against their will. It is evident that the Fenian raids have begun to spring from the Congress which we have reason to believe that there are those who will use the Fenian raids as the coming occasion to divert the attention of their activity because they feel that the administration of the Government will have the credit of settling the Alabama question. It was not to prevent the appointment of the Commission but they mean to do all they can to prevent its success. They are willing to expose the country to any perils rather than the loss of power, to test the capacity of preventing the adjustment which they do not like.

Hon Wm Lawrence says in Congress the repeal of the law which enables a foreign product to be cleared of all duties if it is used in the coal common to that which is likely to promote the interests of the United States.

THE MAINE CENTRAL RAILROAD COMPANY

BANGOR, Feb. 23, 1871.

To the Editor of the Whig & Courier

The report of proceedings of the Maine Central Railroad Company held at Waterville on the 22d inst., although apparently full and complete, makes no mention of an occurrence which is of interest to the citizens of Bangor, viz —When the stockholders were about to ballot for ten directors, a citizen of Bangor rose and called the attention of the meeting to a section of the act of Feb 12, 1866 authorizing the city of Bangor to extend further aid to the construction of the Penobscot and Kennebec Railroad Company in the sum of three hundred thousand dollars, which provides as follows "During the continuance of this loan a majority of the directors shall be and remain citizens of Bangor during the term for which they may be elected", and it was said, this provision being accepted by both parties became a contract between the Penobscot & Kennebec Railroad Company and the city of Bangor which must remain in force so long as the loan continued unless it had been or should be given up by the city

The President said it was new matter to him and so it seemed to be to all. The act of 1866 authorizing the consolidation of the Penobscot & Kennebec and Androscoggin & Kennebec Companies was examined and in part read by the Secy, but nothing was found bearing upon this point. The report of the Treasurer shows that about $75,000 remain unpaid of this second loan and therefore for all that anyone there could see or saw, the condition that a majority of the directors of the Penobscot & Kennebec Railroad Company shall be citizens of Bangor, is still valid, although for a long time disregarded. As no one asked for any action of the meeting upon the newly suggested matter the ballot for directors was then had

THE ARKANSAS QUARREL

The accounts from Little Rock indicate a very bad state of things at the capital of Arkansas. The House it seems has adopted Articles of Impeachment against Governor Clayton and the actions to impeach the Chief Justice (McClure) and such other officers as may stand in the way of its partizan purposes. So far the Committee of Managers appointed on the part of the House to prosecute the case before the Senate have been unable to present the matter officially before that body for the reason that it remains without a quorum meeting daily and adjourning for want of such a number. In the meantime great excitement prevails at Little Rock with the possibility if not probability of a conflict of authority which may result in civil war. There are two persons (Clayton and Lieutenant Gov Johnson) now claiming to be Governor of the State, each threatening to use force and there is likely to be two Chief Justices soon as Johnson proposes to play Governor to the extent of appointing a Chief Justice in place of McClure. Johnson claims to be Governor by reason of the impeachment of Governor Clayton while the latter makes the point that his functions as Governor cannot be suspended on account of the impeachment till such time as the articles are officially presented to the Senate and he notified by that body to appear for trial

Only seven Senators were present on Tuesday and the only business transacted was a resolution instructing the Secretary to notify Gov Clayton and Chief Justice McClure that articles of impeachment would be presented against them by the House. The Secretary performed the duty, Gov Clayton remarking that he would receive the notice but not officially

In the House a bill was introduced to provide for the coming vacancy in the office of Governor. It authorizes the Legislature to order an election in case of a vacancy and if a vacancy occurs when the Legislature is not in session the Secretary of State is authorized to convene that body

We are pleased to notice that the slurs, insinuations and slanders upon the Orphans' Home in Bath, which were published recently in the Bangor Whig, are fully and authoritatively meet and refuted by Gen T W Hyde, Secretary of the Board of Trustees of the institution —[Rockland Gazette.

The Gazette certainly uses stronger language than is warranted by the nature of the communication published by us No letter which could be justly characterized as above would be knowingly admitted to our columns. The conduct of that institution is surely open to public criticism, and we have the strongest reasons for reposing entire confidence in the information of our correspondent.

The Kennebec Journal remarks that while the State Senate has but three Democratic members two thirds of the opposition in that branch to making valid the doings of the town of Pittsfield in aid of manufactures, came from the Democratic side. The town of Pittsfield gave its aid by a vote of 192 in favor and only 6 opposed

NEW BRUNSWICK POLITICS The new government of New Brunswick is formed as follows G L Hathaway, Provincial Secretary, Mr King Attorney General, Mr Kelley Chief Commissioner of the Board of Works, Mr Stevenson Surveyor General.—Messrs. Case, Conert and Jones are also members, but at present without offices. On Thursday the House was prorogued by the Lieut. Governor, to meet again April 5th.—Considerable excitement prevails in political circles and much mutual recrimination was indulged in by members on both sides of the House.

The Navy estimates about to be presented to the British House of Commons show an increase of £336,000 as compared with those of 1870. The increase is mainly in items of steam machinery and ships built by contract.

THIERS AND THE EMPEROR IN CONSULTATION.

PEACE VIRTUALLY CONCLUDED!

The Entry of Paris to be Without Display.

The German Terms Announced to the Powers.

Resignation and Retirement of Trochu.

THIERS' INTERVIEW WITH THE EMPEROR—PEACE REGARDED AS CONCLUDED.

Versailles, Feb. 22. M. Thiers was received by the Emperor at St. Cloud this morning. Count Chanzy was present and the Crown Prince was visited. Peace is considered concluded. The army will enter Paris quietly, without any triumphal ceremony and will not remain long in the city.

The armistice is prolonged to Sunday at midnight. Peace is considered concluded, though not yet signed.

THE GERMAN TERMS CONCILIATORY.

Paris, Feb. 22. Nothing is known as yet of the Prussian terms for peace. The Figaro, however, says the terms are conciliatory.

The Moniteur of Versailles, says the war indemnity demanded by Germany is two billion thalers. The Germans demand the immediate payment of two million francs by the Department of Oise and accord delay in the payment of the remaining eight millions of the contribution.

Communication by all the railways leading to Paris has been re-established.

RETIREMENT OF TROCHU.

The Paris Moniteur says Gen. Trochu has resigned at the request of M. Thiers and retired to private life.

Riot disturbances at Nice have been suppressed.

The Gaulois says Lord Lyons and Chevalier Nigra, the Italian Minister, will soon go to Paris in order to afford Thiers the moral support of their governments in the peace negotiations.

THE CONDITIONS ANNOUNCED.

Paris, Feb. 23. The Patrie to-day says that Bismarck has communicated the conditions of peace to the Cabinets at Vienna, St. Petersburg and London.

Paris is tranquil.

Arras, Feb. 23. The moats around this city have been filled with water for its defence.

MANTEUFFEL'S ARMY.

Dieppe, Feb. 23. The 8th German corps, formerly in Manteuffel's army and composed of Mecklenburgheers, is arriving here, and if peace is signed will embark direct for Hamburgh.

THE WAR INDEMNITY.

Versailles, Feb. 23. The Moniteur (official) of Versailles, justifies Germany's demand for an indemnity of two million [?] thalers. It recalls the examples of America and adds that France will soon recover from her present condition, provided she abandons useless wars.

BORDEAUX STATEMENTS

Bordeaux, Feb. 23. The Moniteur of Bordeaux denies the reports current respecting the Prussian demands and says that Thiers and Bismarck maintain absolute silence at present.

Brussels, Feb. 23. Minister Picard has arrived here. Henri Rochfort has gone to Paris.

No dispatch in regard to the negotiations at Paris have yet been received from Thiers.

France De Jouvielle and Duc D'Aumale are written to M. Grevy stating that they confidentially await the decision of the Assembly on the legality of their elections before presenting themselves to take their seats in the Chambers.

Paris, Feb. 23. Thiers continues vigorously to OPPOSE THE PRUSSIAN ENTRY

and Paris, and warning the Germans of the responsibility they will incur.

A placard was posted on Monday in the students' quarters, appealing to the inhabitants to make

A LAST STRUGGLE

should the Prussians enter the city.

Paris 22. Nothing positive is known as to THE CONDITIONS OF PEACE.

The Financial Journal says it is materially impossible for France to pay an indemnity of eight milliards of francs, or half that amount.

THIERS AND FAVRE

are at Versailles to-day.

FROM WASHINGTON.

WASHINGTON, Feb. 23.

Secretary Boutwell will, early next week, recommend the appointment of Government agents in Europe to negotiate a new loan. The number will not be very large in this country in addition to national banks, all of which are required to act as agents. A large number of others will be appointed to negotiate loans on behalf of the Government.

THE INDIANA LEGISLATURE.

INDIANAPOLIS, Feb. 23.

There was much excitement here to-day in consequence of the resignation this morning of 31 Republican members of the House, which prevents further legislation this session. The reason assigned is an attempt of the Democratic majority to pass a bill re-districting the State in violation of the Constitution, which provides that it shall not be re-districted oftener than once in six years. The last re-districting was four years ago.

ANOTHER RAILROAD ACCIDENT

ELMIRA, N. Y., Feb. 23.

The night Express on the Northern Central Railway, between Baltimore and Elmira, struck a broken rail a few miles below Williamsport, Pa., about 7 o'clock this morning, and was thrown from the track down a 40 foot embankment. The engine, baggage and first passenger car cleared the rail in safety without leaving the track. The second and fourth passenger cars and the third sleeping car went down the embankment. The fifth passenger car was thrown from the track, but did not go down the embankment. The first passenger car made three complete revolutions in going down the bank and is a complete wreck. In this car one man named Adam Tryrueyer of Milton, was killed, and Edwin M. Cemon of Warsaw, N. Y., badly, and Benj. Weeks of Havana, slightly injured. In all, 17 persons were more or less injured. Hon. H. Boardman Smith of this city, was a passenger in the sleeping car and went down the embankment, but escaped unhurt. Horace Beinis of Hornellsville, was in the same car and was thrown violently backwards, his face being badly cut and received other injuries which were probably not severe.

The car took fire from the stoves at either end, but the flames were extinguished before they did much damage. Commander T. A. Roe, U. S. N., was a passenger on the train, but escaped without injury.

BANK IRREGULARITIES

BOSTON, Feb. 23.

The recent reported financial irregularities in the Boston National Banks, are confined to the Webster and North Banks. E. C. Dannell, cashier of the Webster Bank, is alleged to be in default of between $50,000 and $60,000. Henry W. Pitman, receiving teller of the North Bank, $5,000. It is supposed that both banks are amply secured from loss.

MISCELLANEOUS.

UTICA, N. Y. Feb. 23.

The upper part of the Devereux Block on Genessee street, was destroyed by fire this morning. Loss $20,000. Fully insured.

POUGHKEEPSIE, N. Y., Feb. 23.

A survey was made at this point to-day in view of erecting a bridge across the Hudson.

OBITUARY

SAN FRANCISCO, Feb. 23.

Daniel V. Gerald, a lawyer and a native of Rhode Island, and graduate of Albany Law School, died here this morning.

SAN DOMINGO.

SAN DOMINGO CITY, Feb. 14.

Special to New England Associated Press.

The Commission has been busy in looking over the records of the government during the last week, and in gathering statements of persons representing various classes upon the feeling in regard to annexation. The large majority who appear before Commission, and most of them come voluntarily, express themselves as cordially in favor of the change, all of the Commissioners however, admit of the existence of a decided minority against it.

The information concerning complications which Hayti, has caused a change in the plans which had been formed with regard to returning, and the present intention is to visit the capital of Hayti, and try to fathom the whole subject.

If Cabral is as firmly though somewhat secretely supported by Hayti as is reported, both here but more decidedly by way of St. Thomas, it will be regarded by the Commission as a very grave matter as indicating the purpose of that nation.

The Commission has had a long interview with a priest of high rank sent out from Rome to examine the title of the church, to the many extensive rulns of convents, chapels, colleges and other church buildings and grounds upon which they stand. He informed us that the Pope dispatched him nearly a year ago, and immediately upon hearing of the intentions of the United States in regard to the island, he wished the Commission to know the number and extent of the claims which could be insisted upon by the church in case of annexation, so there might be no future misunderstanding. The titles to all the property in question are in dispute under former negotiations.

The material resources of San Domingo, are found to be all they have been represented and that of the public lands and the more valuable mining privileges, and the main natural lines for railways with a grant of adjacent lands have been made over to several companies of American capitalists.

The Commissioners do not propose to visit the interior, unless the conflicting reports from the district of Cibao on the north side of the island shall seem to make it necessary. The statement from parties apparently trustworthy are exactly opposite to each other, one representing that the people are prepared for annexation is agreed upon, and the others declaring them all in favor of the plan.

The exploration of most of the interior will be left to the various students and professors with the Commission. The latter however, has requested and obtained a long report upon the geology and ornithology of the island from Prof. Gabb, the geologist of the N. Y. land company, which is surveying the public domain under the contract of Fabens made with Baez. This report will be incorporated with that of the Commission. The parties now out are the following:

Prof. Blake with the geological party, and Prof. Crane for the Commission on their way across the island to Puerto Plata; Prof. Ward is exploring La Vega; Gen. Siegel has gone to Azua; Profs. Marvin and Miller are making a botanical examination, and Dr. Newcombe is pursuing medical researches in various directions. An earnest effort will be made next week from Azua to send a party to Gen. Cabral's camp. A permission and safe conduct will be granted by Baez for this purpose. An effort will also be made before leaving this place to ascertain the facts about several political prisoners said to be under arrest for expressing themselves among their friends against annexation.

The Commissioners met last evening and exchanged views in regard to the work remaining to be done and the propriety of forwarding a preliminary report. The investigation so far as made and particularly the result of the past few days begins to open wider than expected at the first of the week and it was agreed to name the middle of April as the time for their arrival in Washington. On the question of a brief report by mail, it was decided not to send it, in view of the fact that considerable important information but just obtained might materially modify any report made up from what has already been considered.

The Secretary of State was addressed in a brief letter, giving an outline of the work already done and of the expedition sent into the interior, together with the object of each at the date named above; they also communicated as to the probable time of reaching home.

President Baez has called the attention of the Commissioners to the fact that a second payment for Samana has not been made.—This violation of faith, as it is regarded here, has seriously embarrassed Baez and left nearly all his officers without pay. The coalition of the Commission seems decided that the money should be paid immediately.

Just before the sailing of the steamer a novel event for Santo Domingo occurred in the Supreme Court. For the first time in its history an American was admitted to plead, in a case of considerable magnitude as principal counsel. Upon application from an American here, Col. Wm. McMichael of Philadelphia, formerly of Gen. Thomas' staff, who accompanied the Commission, consented to undertake the case and won it.

The Tennessee will, it is now expected, leave with the party for Azua on Thursday or Friday of this week. They are all enjoying excellent health, and the officers and crews of the U. S. steamers Nantucket and Yantic in this harbor, are well.

FORTY-FIRST CONGRESS

THIRD SESSION.

WASHINGTON, Feb. 21.

SENATE.

The House Joint Resolution relating to the Panoche Grande, being McGarrahan claim, was read and temporarily disposed of on motion of Mr. Wilson, by being laid on the table. Messrs. Wilson and Trumbull remarked that there was not time to dispose of the bill at the present session.

The Texas Pacific Railroad bill was received from the House, but action was postponed until the bill could be printed.

Mr. Sherman from the Com on Finance, reported back House bill declaring that section 25th of the act to provide national currency shall apply to every bank President, cashier and agent, relative to the certification of checks. Passed.

The Senate bill to amend the bounty laws, was passed. It is as follows:

That all soldiers who were mustered into the service of the United States for three years between May 4 and July 22, 1861, and who were honorably discharged, or who, having two years, by reason of disability contracted in the service, are entitled to receive $100 bounty.

Mr Wilson explained that the aggregate expense under the bill just passed would be about $400,000 and it was designed to carry into effect the decision of the Supreme Court.

The Com. on Appropriations reported the army appropriation bill with amendments.

HOUSE.

The House proceeded to the consideration of the bill making appropriations for the construction, preservation and repair of certain fortifications and other works of defence. Mr. Niblack of Ind., explained the character of the bill.

Mr. Schumaker of N. Y., asked leave to offer a joint resolution that on and after March 1st the duty on all species of coal be the same as on any other article that is free—objected to.

Mr. Brooks of N. Y., wished to have read in connection, a telegram received by him from New York, as follows: 'Coal at twenty dollars a ton, cannot you inaugurate an immediate movement to abolish the duty?'

THE VERDICT ON THE NEW HAMBURGH DISASTER. The verdict of the Coroner's jury upon the victims of the New Hamburgh disaster is: "That said persons came to their death by suffocation by fire or drowning in consequence of a collision between the Pacific express train and a car loaded with crude Petroleum, thrown across the track of said train on which they were passengers. The jury believe the oil train could not have been stopped soon enough to have prevented the accident; that the employees of the oil train used all means at their command to promptly signal the coming express train; that the signal men did their duty in the premises; that the express train was half a mile from the disaster when signaled, and that all engines have been equipped with the Westinghouse brake, found effective; that from some reason, to us at this time unknown, the Westinghouse brakes were not sufficiently applied."

Hon. Lee Claflin, father of Governor Claflin, of Mass., died on Thursday, aged 79. It is reported that 35 Republican members of the Indiana House of Representatives have resigned and that the Republican Senators will also resign.

The special correspondent of the N. Y. World, describing the surroundings of Samana Bay, San Domingo, makes the following reference to a citizen of Maine now located there:—

Let me here note that, so far as I now perceive, the flag of freedom waves here only over a single small island—the Carenero, used as a coaling station. We see another stary standard hoisted also on the shore, but it seems that this is only a private affair, and represents not the Government but one of the people of the United States, Mr. Benjamin Burr, of Rockland, Maine. * * * The only large American settlement we found were Mr. Burr, who holds an estate of about one hundred acres, which he cultivates as a private proprietor, and Messrs. Fabens and O'Sullivan, who hold a considerable extent of water front at the head of the bay. * * * There is no evidence that yellow fever is an epidemic here, but much evidence that other and very disagreeable fevers are here endemic. Mr. Burr, who has lived here two years with his wife and child, thinks the place healthy. But he admits that he, his wife and his child have each been ill with the local fever, and the child was in bed at the time of our visit.

A BOLD ATTEMPT AT ROBBERY. A box marked "T. C. Cross, Newton Corner, Mass.," was left at Wells & Co's Express office in Denver, Col., Monday night, to go east by the Pacific train. Suspicions were in some way aroused, and upon examination, Cross himself, a young man who resided at Denver for some time, was found inside. He had chloroform and tools with him, and the box had a false bottom. A heavy shipment of gold was to go east by the same train. Cross was arrested and placed in jail.

THE GOLD FALLING.—The New York Herald of Wednesday says: "There was not over $50,000 of authentic gold sold in the city, and it is nearly divided between the wholesale and retail dealers." Its retail price, which in December last was $6,50 per ton, now stands at from $11,00 to $13,00, and the wholesale price is but very little less. About 18,000 tons of bituminous coal is held for the Steamship Companies in contract and is therefore not available to the general public. There is not at present more than a week's supply of coal in the city.

HOMEWARD.

BY LOUIS BROOKE.

A gallop through the mountain way,
With click, click, click, against the flint,—
Hard following on the dying day,
That backward flings a fiery tint.

The twilight pines stand dense and grim,
And sigh and sigh, "The day is dead;"
The virgin birches, tall and slim,
Wave shadowy arms across the red.

In brooding peace the uplands lie,
Stretched dimly in their evening rest;
As through their lifted calm I fly,
On, onward, to the happy West.

On West, heart-red, burn close before!
Pink, dreamy East, float far behind!
No pause, good steed,—a few miles more,
In yonder glow our rest we'll find.

Urgent, we reach the downward hill,
The village darkens far below,—
Has aught befallen her off-id?
My anger heart leaps down to know.

A swift descent along the ridge,
Through shady glooms and breaks of light;
A cheery clatter on the bridge,
Then up the street where falls the night.

Across the dark a hearth-fire's gleam,
A graceful shadow on the wall;
'Twas false, think God, that last night's dream,
That something evil did befall.

From out the door a ruddier shine
Meets vanished daylight's golden trace;
And starry eyes turned up to mine,
Our light in heaven and home and face!

MAINE CENTRAL RAILROAD

Extension Bonds.

[First Mortgage.]

It is generally well known, the Maine Central Railroad terminates at Danville Junction, and from thence to Portland the Road is a part of the Grand Trunk Railway. For the use of this piece of Road, (some 28 miles) the Maine Central pays to the Grand Trunk a rental, which, for some years past, has amounted to some $70,000 per annum. The Maine Central having leased the Portland & Kennebec R. R. and thus joined that entire Road with its own under one management, has decided to obviate the necessity of using the Grand Trunk road from Danville to Portland by building an Extension of its own road, from Danville Junction to CUMBERLAND, using the Portland and Kennebec R. R. from thence to Portland.

This Extension has already been surveyed and more than three fourths of the requisite grading and all the stone work and masonry completed, and the road will be ready for the iron, (already contracted for,) in the Spring, and prepared for business soon afterward. To aid in accomplishing this work, the Maine Central Railroad has issued its Bonds to the amount of $500,000, payable in thirty years from October 1st, 1870.

These Bonds are secured by a First and only Mortgage upon the Extension, and the Entire line of the Maine Central with all its property, (which would readily sell for three times the amount of its Bonded debt,) is holden for the payment of the Interest and Principal of these Bonds.

The security is

UNQUESTIONABLE.

A large part of this issue has already been taken in this and other States, and the remainder is offered for sale at a price which makes them one of the most desirable investments in the market.

The Bonds bear Interest at the rate of six per cent per annum and both

Principal and Interest payable

IN GOLD.

Free from Government Tax.

Coupons Payable in Boston, April 1st and October 1st in each Year.

When it is considered that by building this Extension the Road can have a complete line of its own through to Portland at an outlay of some $30,000, (gold,) per year for interest, instead of paying some $70,000 per year rental to another corporation, the economic economy of the undertaking will be apparent.

The local business alone, on the Extension will be profitable, besides the advantage to the Road of thus being connected by the same gauge with all the great Railroads of the Country.

Bonds issued in denominations of

$500 and $1000 each.

The highest market price will be allowed for Government, State, and City Bonds, Bonds of other Railroads and Corporations, and all marketable securities, in exchange for above.

MARGARET CAMPBELL of Lincoln, County, Penobscot, State of Maine, respectfully libels and gives this Hon. Court to be informed that she was lawfully married to Anjus Campbell, at Nova Scotia, Feb. 19th, 1854, and that they have resided in the State of Maine during the past four years, and that since their marriage your libelant has been a faithful wife.
